## CRITICISES WILSON FOR AIDING THE REBELS.

### Mistaken Policy Has Brought Near Intervention and War.

President Sees but Little Hope of Relief Through  
Mediation and Believes Cost to This Country if Forced  
to Intervene in Southern Republic Will Be Many  
Millions of Dollars a Day.

[BY A. P. NIGHT WIRE.]

WASH., May 17.—William Taft gave his views on the Mexican situation today in a speech before the House of Representatives. He said that the policy of mediation was a mistake and that the cost to this country if forced to intervene in the Southern Republic would be many millions of dollars a day.

Mr. Taft said that the policy of mediation was a mistake and that the cost to this country if forced to intervene in the Southern Republic would be many millions of dollars a day.

## Proves Efficiency of Aerial Bombs.

Capt. Salinas Carranza,

Relative of the rebel chief, who has demonstrated what aeroplanes can do in warfare by crippling a Federal gunboat.

## AERIAL BOMBS OF REBELS TERRORIZE MAZATLAN.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

SAN FRANCISCO BUREAU OF THE TIMES, May 17.—The following description of the battle of Mazatlan was received today from a staff correspondent with the American fleet.

ON BOARD FLAGSHIP CALIFORNIA (per S. S. Cetra) May 6. Three men and an infant were killed and eight other persons were wounded this morning when one of two bombs dropped from a rebel biplane exploded in the heart of the city.

It seems improbable that the aviator's intentions were to drop his missile of death and destruction among the non-combatants.

As a result of the killing of the non-combatants, Admiral Howard sent a note to Gen. Obregon, commanding the rebel forces outside the city, protesting against the wanton use of bombs.

The note was concurred in by Commander Von Schoenberg of the German cruiser Nürnberg.

Gen. Huarte, commander of the rebel forces two miles from Mazatlan and Edward Hay, aide to Obregon, expressed deep regret for the killing of the non-combatants by the aero bomb.

In their response to Admiral Howard, the rebel officers admitted their error and promised to confine their attacks to the fortified Federal positions.

The terrible havoc wrought by the biplane caused a general exodus from the streets and plazas. For the remainder of the day the terrified population remained under cover.

On sped the biplane over the post and the transatlantic liner searched for five days within a wide radius of the spot where the Columbian burst into flames.

But if the desire of the aviator was to sink the liner, he failed.

The second bomb exploded harmlessly on the hillside and a moment later the artillery of Reynaldo Diaz was again throwing shrapnel across the harbor to the rebel position on Piedad Island.

The biplane was swallowed up in the distance.

Moved Down.

## FOUR HUNDRED SPANIARDS MASSACRED BY REBELS.

BY GEORGE ADDISON HUGHES.

[BY MEXICAN CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]

VERA CRUZ (Mex.) May 17.—Four hundred Spaniards who departed Gen. Orozco's Federal column at San Luis Potosi have disappeared and are reported to have been annihilated near Tampico by Constitutionalists who met them at Tamasopo and showed no quarter when overwhelming numbers compelled the Spaniards to surrender.

Three Spaniards, who say they were part of the command and the only survivors, arrived here today and described how they had been hemmed in on one side by the Federalists and on the other by Constitutionalists.

Not aware of the Constitutionalists' decree ordering all Spaniards out of Tampico under penalty of execution, the Spanish volunteers met the

Constitutionalists by sending a flag of truce, receiving in return a volley of bullets.

Francis Joseph Wors.

VIENNA, May 17.—The condition of Emperor Franz Joseph was adversely affected today by the cold and wet weather. The official bulletin is still favorable, but it is understood his physicians are trying to get the Emperor to seek a warmer resort in the south.

## SUCCESSOR TO HUERTA PROBLEM OF MEDIATORS.

### Elimination of Villa and Carranza Con- ceded, Cabrera a Possibility.

Peace Delegates from Mexico Depart for Niagara  
Falls Conference After Call of Secretary of State Bryan—Remnants of Federal Garrison of Paredon Have Retreated to Ramos Arizpe.

[BY A. P. NIGHT WIRE.]

HIPOLITO (Mex.) May 17.—The remnants of the Federal garrison of Paredon routed by Gen. Raoul Madero and the Zaragoza brigade of the Constitutional army two days ago in the first skirmish of the Saltillo campaign have retreated to Ramos Arizpe, six miles north of Saltillo, according to reports brought by rebel scouts to Gen. Francisco Villa today.

The line will be repaired with the utmost haste, but Gen. Villa may go ahead without it.

WASHINGTON, May 17.—Peace delegates of the Huerta government, who departed from Washington today for Niagara Falls, N. Y., to attend the mediation conference on Wednesday, are confident of the success of their mission, which, it was learned, is the broad question of pacifying all the Mexicans.

The three envoys are said to realize that the present administration in Mexico City is fast crumbling and that the choice of some one to succeed Huerta is inevitable.

But, conceding the retirement of Huerta, the delegates are said to be most interested in the vital question of what is to follow, what guarantees are to be obtained against the possible confiscation of property by the invading Constitutionalists, protection against conditions of anarchy and what kind of government will be stable and will obtain world-wide recognition.

Meanwhile, those who know the broad viewpoint of the Washington government, declare the American troops will not be withdrawn from Vera Cruz until a stable government is established or is in sight in Mexico City.

Persons close to Emilio Rabasa, chairman of the Mexican commission, said the Huerta delegates probably would not be able to obtain the guarantees they desire for the Constitutionalists' cause.

Gen. Carranza, who has won the confidence of the Washington administration in his indirect dealings with them for the Constitutionalists' cause, is at present in en route to New York from Spain.

It was understood today that some of the Mexican delegates believe the Constitutionalists will be asked again to be parties to the mediation or that the influence of the American government will have to be exerted to gain their participation in any plan submitted by the mediators.

Two of the mediators, Minister Naon, of Argentina, and Ambassador Da Gama, of Brazil, also started for the conference today.

Before the Mexican party left, the three delegates drove to the home of Secretary Bryan and made a call of ceremony by leaving their cards. Mr. Bryan soon after returned their call by leaving his cards for the delegates at their hotel.

The Mexicans will stop over at New York until Tuesday.

Insist that no man who had gained military prominence or was obtaining power by arbitrary force, as set forth in President Wilson's Latin American declaration, should be permitted to take the reins of the government. This would, in effect, eliminate Gen. Carranza and Villa, but there are other men in the Constitutionalists' ranks.

Gen. Funston today was a report from Gen. Funston that the San Francisco bridge on the Intercoastal Railroad, twenty-eight miles from Vera Cruz, had been destroyed. This confirmed reports from naval aviators who have made observations along this route. The bridge, which spanned a ravine and the River Antigua, was of steel construction 163 feet long. Its destruction will not affect communication with Mexico City, as the principal route is over the Mexican Central Railroad.

Gen. Funston also reported rumors that Gen. Navarrete, the Federal commander, was in the vicinity of Vera Cruz, with a force of 3000 men. Army officers seriously doubt, however, that Navarrete has so many troops in his command. Gen. Funston said the five Mexican snipers at first believed to be South Americans had been released in accordance with instructions received from Secretary Garrison.

## INTERVENTION THE ONLY WAY.

Wise Mexicans Think Foreign Action Required.

War With United States Is Courtied by Many.

Ignorant Natives Taught to Dislike Americans.

BY FREDERICK SLOOM.

That the powers eventually will be forced to intervene in Mexico in the interest of peace is the belief not only entertained by the strangers in the land, but by a large majority of the intelligent natives as well.

In the ultimate analysis of the possibility of an organized and prolonged war between the United States and Mexico the decision will rest not so much with the military leaders now occupying the center of the stage as with the little known and semi-independent chieftains operating in the back country. They have been taught to believe that the American people simply await an opportunity to seize the nation and force the ignorant masses into a form of servitude.

From early childhood the pupils of the public schools have been educated in the belief that the United States committed a monstrous wrong in the war of 1846, when more than a half-million square miles of territory were taken in liquidation of claims under a form of purchase, which cost the Mexican government about \$15,000,000. Since that time it has been the custom of the school children to sing patriotic songs which were calculated to instill a hatred of everything American and a love of Mexico and its institutions.

In order to make an effective resistance against foreign intervention it will be necessary to reconcile the outstanding factions and bring the army under the control of some one man.

It has repeatedly been asserted that Villa at least would hold aloof from any combination having for its object opposition to the United States, but those familiar with conditions in Mexico realize that even Villa could not hold his army together in the face of threatened invasion by the American forces.

The same racial hatred would not be manifested in the case of any other country or in the event of collective intervention, and it is only with the aid of other powers that the United States can hope to maintain its prestige in Latin America when the time comes to enforce peace at the point of the bayonet.

Among the rebel authorities it is the common belief that Huerta, or some of his followers, may commit some untoward act in the event of provoking the United States to war, but those who know Huerta insist that he is too patriotic to plunge his country into ruin simply as a matter of spite. Contrary to the general idea in this country Huerta is not always the back-headed monster that he has been painted. Merciless as a savage to his enemies, he is known to be as gentle as a child to those he loves and whose friendship he openly cultivates.

With regard to his personal habits, those who are in the confidence of the Mexican President assert that there is no information as to the use of a certain amount of stimulants, the strain of guiding his country through the present crisis would prove too great for even a man of Huerta's iron nerve.

Under ordinary conditions Huerta does not arrive at the national palace until noon, and it is rarely that he can be found in his office after nightfall unless some emergency makes it necessary to call a Cabinet council.

The man who is held responsible

for nine-tenths of the trouble between the two countries is Gen. Blanquet, the present Minister of War and the man who personally fired the tiro de gracia into the heart of Madero. Years later he turned upon Madero and made him a prisoner in an executive chamber. That Gen. Blanquet was present when Madero was struck down after signing his resignation is no longer a secret in the Mexican capital and those who have followed Blanquet's career believe that he even now has his eye focused on the Presidential chair.

The question frequently is asked regarding the length of time it would take to pacify Mexico in the event of intervention. In the light of past history and the present condition of the nation's fighting strength, men best capable of judging from a military viewpoint allege that the United States troops alone could take all of the larger cities and towns within a period of eighteen months. But the struggle to subdue the people back in the mountains and on the lower plantations would well last for several years, even if the majority of Mexicans themselves were satisfied with their new rulers, as the people of Vera Cruz are said to be at the present time.

The records of the rebel War Office shows that there are about sixty chieftains now in the field and of this number more than half are under no banner except the black flag of brigandage. These are the men who would make trouble for an army of invasion and it is doubtful if they could be induced to join with either the Huertistas, Zapatistas or Constitutionalists in any movement involving organized warfare. Living half a savage life in the mountains these lefies might be expected to harass an army of occupation in the event of obtaining supplies and making life a burden for the hated gringos.

Of the recognized Constitutional leaders, Villa, Gonzalez Obregon, the Arista brothers and Contreras probably will leave the country in the event of war, as all have accumulated independent fortunes in the last few months. Gen. Carranza and his brother, Jesus, would remain, their fate would depend upon the writer regarding his attitude in the case of intervention. Gen. Carranza replied: "I would not make a Mexican of the dignity and honor of my country," and many of his followers think he spoke the truth.

In studying the possibility of future trouble it must be remembered that practically every Mexican, in his heart, firmly believes in the United States without trouble and that we would experience much difficulty in making our armies march from Mexico to the United States.

Abundant as this may appear to Americans, no doubt exists that thousands of Mexicans are in the attitude of courting war and the resistance that will be offered will depend almost wholly on the people and their leaders who up to the present have remained in the background.

### MINISTER OBEYS.

Missionary in Sonora States He Would Not Have Left His Work But for Consul's Orders.

(LOCAL CORRESPONDENCE.)

POMONA, May 17.—The Rev. Alden B. Case, who with his wife and daughter arrived here at the home of his brother, Dr. N. J. Rice, last week, from Hermosillo, Mex., states that he would not have left Mexico if the American Consulate had not issued orders for them to leave and stay away until the present Mexican troubles were settled.

The Rev. Case says, however, that the Mexicans are bitter toward the Americans, believing that the intentions are merely that of conquest. In connection with his missionary work he conducted a sort of agricultural school, teaching the natives how to grow corn and crops in a modern way, thus becoming self-sufficient.

Refugees Reach New Orleans.

(BY A. P. NIGHT WIRE.)

NEW ORLEANS, May 17.—The steamship *Castro* arrived last night with 151 refugees from Puerto Mexico and Tampico.

## MANY AMERICANS KILLED BY WEST COAST MEXICANS.

Refugees Arriving in San Francisco from Manzanillo Report a Score of Murders and Other Atrocities—The Brig *Geneva* Captured and Crew Held Prisoners for a Week—United States Consul Penned in Stateroom.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, May 17.—Graphic reports of the murder of Americans, the capture by a Mexican transport of the American brig *Geneva*, the imprisonment of United States Consul Clement S. Edwards of Acapulco, and many atrocities on the West Coast of Mexico, were brought in today by the officers and 150 refugees on the British steamer *Cetina*, which arrived today from Manzanillo.

Lieut. Edward J. Minister, Royal Naval Reserve, commander of the *Cetina*, got his steamer loaded with refugees, away from Manzanillo by daring and skillful action on April 23, when it was believed the Mexicans were preparing to burn it at the dock by firing and dynamiting the wharves. According to the refugees, when the capture of Vera Cruz by the United States reached the West Coast it was taken by the Mexicans as the beginning of war. The Mexicans were held as prisoners of war by the *Cetina*, and the Americans abandoned their homes and fled. All those they were held were killed if they had stayed.

As the *Cetina* got away from the dock, maneuvering adroitly to escape the Mexicans, an attempt to hem it in by four Mexican steamers, a rifle fire was directed against it. Many of the bullets struck the steamer.

Upwards of a score of murders, mostly of Americans, were reported by the *Cetina*'s passengers, who gave names in some instances.

Capt. W. H. Ferguson of the brig *Geneva* of San Francisco was one of the *Cetina*'s passengers. For nearly a week his ship, crew and four refugees were held as prisoners of war by the Mexicans, he reports. The arrival of the U.S.S. *Raleigh* brought about his release.

### GENEVA'S CAPTURE.

Capt. Ferguson said: "We left San Francisco January 31 and discharged our cargo at Guaymas, a small town in Sonora, where we were held as prisoners of war. On April 21 we were all ready to sail north, except that we needed water and provisions. The Mexicans refused to give us water or provisions but told us to sail. We took on four American refugees, including a woman with a baby, and sailed.

"There was not sufficient water aboard for us to reach an American port. The water was absolutely necessary."

"I decided to proceed to a point off Manzanillo and arrived there April 15, five miles from the harbor. There was no American warship in sight and the Mexicans headed out to sea. On April 26 we were twelve miles off Manzanillo in a flat calm."

"Through the persuasion and diplomacy of Commander Minister of the *Cetina*, we were allowed to board the *Geneva*."

At Manzanillo, reached April 27, Minister found thirty-seven refugees waiting under the protection of the German Consul.

During the first night the dock to which the *Geneva* was towed was soaked with oil and mined with dynamite. When Commander Minister inquired of the Mexicans why they were given thirty-minutes' notice to get away, he was told: "We intend no harm to you. We wish to destroy the dock, so that the Americans cannot use it," said the Mexican officials.

"The Mexicans were distrustful and armed his passengers. His suspicions grew when Mexican steamers began to crowd around him so that he barely had an opening to leave. It was believed to be a plot to trap the *Cetina*, burn the dock, let the *Cetina* escape and later report its destruction as an accident."

REPORTED KILLED.

H. N. Hale, a mine superintendent who led a party of seventeen refugees from Tepic and boarded the *Cetina*, gave out a list of Americans who, he believes, have been killed. Most were in the vicinity of Tepic.

Arthur F. Flynn of Minneapolis, who was captured in Santiago, Ixcenia, leaving La Paz, was killed. Theodore Jones, who was captured in Tepic; H. S. Wyndham, W. C. Dunn, Murray Thomas, Tom Fernandez, Arthur W. C. Jones, son of a professor, were captured by the Mexicans, imprisoned by Gen. Juan Solari, reported to be a bitter hater of Americans; Rosa Morado, Otto Lund, wife of Frank Rodriguez of Arizona and Frank Soto.

One of the returning refugees today said that the *Geneva* was reported more than a week ago missing on the yacht *Iola* with a moving picture camera. The *Iola* was reported that he had been in peril and counted himself fortunate to escape.

STEAMSHIPS WITHDRAWN.

SAN DIEGO, May 17.—With the demoralization of shipping along the West Coast of Mexico, owing to the orders closing all ports, which have been issued by President Huerta, the steamships have been withdrawn from Mexican trade until conditions become more settled in the southern republic. Three steamers, the *Mazatlan*, the *Victoria* and *Cetina*, have been taken off their respective runs and their sailings indefinitely postponed.

Frederick Jensen, owner of the *Mazatlan* and president of the Lloyd Mexicana S. A., has lost two vessels through seizure by Mexico. He will lay up the *Mazatlan* pending a settlement of the difficulties along the lower coast.

William Eadie, owner of the *Cetina*, declares that he would not risk the ship again in Mexican waters until traffic conditions improve.

An attack on Payne and the crew of the *Iola* at Guaymas was averted by the timely arrival of a host of American sailors from one of the warships then in port. Other hazardous experiences were encountered and Payne, the moving picture operator and the crew of the *Iola* left their craft behind and boarded the *Cetina*.

S. W. Wall, a newspaperman of Tacoma, Wash., was one of the *Cetina*'s refugees.

"Following the occupation of Vera Cruz, Americans suddenly found themselves in a country turned bitterly against them. The Mexicans were not to be trusted. They were without means of escape and but for the chance arrival of the *Geneva* and the *Raleigh* their lives of many no doubt would have been sacrificed."

### Our Blood.

Consul, Fritz Kayser, and got into touch with him. Commander Minister sent us word that he would not leave until we were released. He arranged to steam away and pick us up after we had escaped in small boats.

"We were ready to escape in the small boats when the *Raleigh* arrived. The *Cetina* started to leave. I raised the Stars and Stripes on the *Geneva* and in a roar broke out from the refugees on the *Cetina*."

"We got into the small boats and rowed to the *Cetina*. We rowed away the boats were fired on from the bow of the Mexican steamer *Guerrero*, but no one was hit. When we were close to the *Cetina*, the steamer fired at the *Raleigh*."

"Mines were exploded at the end of the dock and a roar of shot was heard. The *Cetina* was rammed by the Mexican steamer *Guerrero*. The *Guerrero* was a convict ship and some of the convicts tried to swim ashore. They were fired at."

"On April 30 the *Geneva* was released. The *Guerrero* was a convict ship and some of the convicts tried to swim ashore. They were fired at."

"The Kaiser thereupon stopped Herr Ballin's movement in favor of participation."

Contraband.

BELIEVE HUERTA GOT JAP GUNS.

IT LOOKS AS IF HIS GUNBOAT LANDED THEM.

American Military Men Think the "Guerrero" Got the Forty-eight Field Pieces Shipped from the Orient and Took Them to Salina Cruz.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SAN FRANCISCO BUREAU OF THE TIMES, May 17.—The forty-eight field guns shipped from Japan to the Huerta government prior to the blockade of Mexican ports by American men-of-war, are believed in military circles here to have been landed near Manzanillo. This belief is based on the peculiar movement of the Mexican gunboat *Guerrero*, which has been reported to have been seen in the vicinity of Manzanillo.

Obregon's rebels began shelling the Federal position. The *Guerrero* was ordered to return to the Federal position. The *Guerrero* was ordered to return to the Federal position.

Instead of returning to Manzanillo, the *Guerrero* was ordered to return to the Federal position. The *Guerrero* was ordered to return to the Federal position.

## ENGLAND'S REFUSAL TO PARTICIPATE.

GOLDBERGER DECLARED RESPONSIBLE FOR ABSTENTION OF THAT COUNTRY.

(BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.)

LONDON, May 18.—The Berlin correspondent of the Daily Mail claims to have learned the real reason why the movement headed by Herr Ballin, managing director of the Hamburg-American Steamship Company, in favor of German merchants participating in the Panama Pacific Exposition in 1915 collapsed.

The correspondent says the head of official opposition to participation in the exposition was the late brilliant capitalist, Dr. Goldberger, chairman of the Government Exhibitions Department, whose forceful personality imposed non-participation on the German government.

The correspondent says Dr. Goldberger realized that the surest way for making participation by Germany unnecessary was to induce Great Britain also to refuse to do so, and it is to be inferred from the correspondent's statement that Dr. Goldberger was responsible for persuading Great Britain not to participate officially in the exposition.

When Dr. Goldberger died last fall the Kaiser paid a long visit of condolence to the widow, who told him that her husband's death had been hastened by heated antagonisms between the Kaiser and Dr. Goldberger's participation in the exposition. She enlightened the Kaiser for the first time in his life, and he was moved in honor to Great Britain not to participate in the San Francisco exposition.

The Kaiser thereupon stopped Herr Ballin's movement in favor of participation.

It was learned that Gen. Maas had been sent back to Cordoba, but as second in command under Gen. Garcia.

## FORCED TO QUIT THEIR RANCHES.

Lower California Families Reach San Diego.

Leave at Urgent Request of Consular Agents.

Will Lose All Their Cattle and Ripened Crops.

(BY A. P. NIGHT WIRE.)

SAN DIEGO, May 17.—Leaving thousands of cattle grazing on their ranches, their crops to spoil and their household goods and other effects to be plundered by marauding bands of Mexicans, thirty-two American refugees arrived here at 9:30 o'clock this morning from San Quintin and adjacent territory on the monitor *Cheyenne*. The refugees say they left their Lower California homes only at the urgent request of United States Consular representatives. Thirty ranchers, a number of them Norwegian, refused to leave their property and remained behind.

Among the heaviest losers of those arriving on the *Cheyenne* was Mrs. Ella M. Johnson, twenty members of whose immediate family were refugees aboard the monitor.

BIG LOSERS.

"We own a thousand-acre ranch near San Antonio del Mar and another of 1600 acres at San Jose, the latter located in the mountains back of San Quintin," said Mrs. Johnson. "We were just getting ready to harvest our crops when word was received from the State Department that we had better leave. I thought it was peculiar because the Mexican residents had always treated us courteously while there were no Federal soldiers within hundreds of miles of our homestead. For the children's sake, however, I deemed it best to accede to the State Department's warning and after turning our livestock loose, including hundreds of chickens, geese and hogs, we gathered a few things together and left for San Quintin."

"Lower California is a wonderful place to live," continued Mrs. Johnson.

Hostile.

MEXICANS NEAR VERA CRUZ SHOW INCREASING ACTIVITY.

(BY MEXICAN CABLE AND A. P.)

VERA CRUZ (Mex.) May 17.—The activity of the Mexican forces beyond the American lines increased today.

Women and children and some men appeared within the American lines at one point, carrying their household goods and their asserted Mexican cavalry were approaching from the north-east.

It was learned that Gen. Maas had been sent back to Cordoba, but as second in command under Gen. Garcia.

Cablegrams based on messages from Tampico have been sent to Berlin urging the government to protest against the forced loans alleged to have been imposed by the Constitutionalists. The Constitutionalists, according to dispatches, have fixed a general assessment of one million pesos, explaining that the amount was obtained the leaders.

## THE CITY AND ENVIRONS. EVENTS BRIEFLY TOLD.

### Birthdays.

About sixty guests, most of them of Spanish extraction, gathered yesterday at the home of A. Biderman, No. 124 East Avenue. Thirty-three, for a barbecue and jollification. The occasion was the birthday of Mrs. Biderman.

### Peace Society Meeting.

The fifteenth anniversary of the Hague Conference will be fittingly celebrated this evening by the Peace Society at the Y.M.C.A. Rev. J. Whitcomb Brounger will speak on "Words or Pruning Hooks" and Rabbi Meyers will read "Zangwill's 'The War God.'" Robert C. Root, secretary of the Peace Society will also speak.

### Pythian Delegates Leave.

Two hundred Knights of Pythias, headed by Vice-Grand Chancellor K. A. Miller, left in a special train of seven coaches at 8 o'clock yesterday morning for the Southern Pacific for Sacramento to attend the State meeting. The session will last one week. Eric Gen. J. O. Royer and members of his staff will leave for Sacramento today. Col. Miller is slated for election to the office of Grand Chancellor.

### Norwegians Celebrate.

Two thousand Norwegians yesterday celebrated the centennial of Norway's independence with a native picnic at Eagle Rock. Norwegian and English songs were rendered by the Norway chorus and speeches were made in both languages. Rev. O. A. Dohlgren spoke in Norwegian and told of the achievements of the Norwegians in 100 years of independence. I. Hall, an attorney, delivered an address upon the accomplishments of Norwegians in America. The usual foot races and contests for men and women were held. O. Halvorsen was chairman of the day.

### Ad. Club Luncheon.

Henry Hatcher of Hollywood, recently returned from a tour of Europe, Asia and South America, and formerly confidential man of the Guggenheims in New York, will address the Ad Club at luncheon in the Clark Hotel tomorrow on "Honesty in Business and Advertising." Other speakers will be Rev. J. Whitcomb Brounger on "My Visit to the Honolulu Ad Club," President J. Anderson of the Sacramento Ad Club on "The Vancouver Programme," and Stacey W. Bolford on "Street Car Advertising." Mrs. Nell Turpen-Lohmeyer will sing with J. R. Lohmeyer at the piano.

### Fields Night Watchman.

Lumber Thief Backs Wagon Up to Gate and Coolly Proceeds to Carry Away Material.

A lumber thief, interrupted while he was loading his wagon with material in the yards of the Barber-Bradley Lumber Company, at No. 1224 East Fifteenth street, shortly before midnight last night, struck Michael Duffy, the night watchman, across the eye and knocked him unconscious. A heavy board was the weapon used.

When Duffy revived, the thief had gone with half a load of lumber on his wagon. Duffy called the police station and later was brought to the Receiving Hospital.

The watchman, on his rounds, saw the wagon headed east out of the yard gates. The thief was industriously loading the wagon and trying to keep quiet the two horses hitched to it. As soon as Duffy arrived, the thief picked up a board and struck him.

### LETTERS TO "THE TIMES."

[The Times prints strong, clear, bright expression on county election, printed matter, popular, friendly should be kept in sight. Many a letter, however, is printed in the paper, but is not read by the writer's true name, which will be either published or withheld at the writer's option. Letters for publication should be in "parliamentary" form, and are subject to editorial selection.]

### Damned if Not.

LOS ANGELES, May 16.—(To Editor Times): Isn't it an outrageous city charter that will permit 22,000 voters to inflict a tax of \$4,500,000 on 490,000 citizens?

### CITIZEN-TAXPAYER.

ARRIVES WITH SMALLPOX.

John T. Warren, 20 years old, and a negro, of No. 845 East Ninth street, came in on the Southern Pacific from Paso Robles last night. He had a rash upon his face that caused his employer in Paso Robles to discharge him, temporarily. When Warren arrived, he made his way to the Receiving Hospital, where he was met accidentally, at the door by Chief Nurse Morgan, who diagnosed the case at once. Mr. Warren was taken to the county pesthouse.

## LAUGHTER BELOW, TRAGEDY ABOVE.

### FESTIVITIES REIGN IN HOUSE WHERE CORPSE LIES IN UPSTAIRS ROOM.

For forty-eight hours an apartment in the rooming-house of Mrs. L. J. Price at No. 325 South Figueroa street had been an abode of death. A party had been held in the reception-room of the place Saturday night while a corpse lay in this quiet, death-inhabited room on the third floor.

Shortly before 6 o'clock last night Mrs. Price went to the room of B. A. W. Johansson to learn why he had not been out since Friday evening. She feared he might be ill. As she approached the door a premonition of something ominous filled her mind. Her most serious fears were realized when she opened the door and found his lifeless body upon the bed, a deep gash across his throat and a bloody razor beside him. It was plainly suicide.

Mrs. Price said last night that Johansson went to his room at about 9 o'clock Friday evening. He seemed apparently well and contented. Since that time she had no memory of having seen him and last night investigated.

A note, written in Swedish, was found on his dresser by the coroner's inquest, which will be held today.

Johansson was a Swede, 30 years old. He was a painter. So far as is known, there are no relatives here. He was unmarried.

### MORE MONEY THAN HE COULD KEEP.

SHOE DEALER TRIES AN EXPERIMENT THAT BRINGS QUICK RETURNS AND BIG ONES.

Going home on the Sixth-street car Saturday night.

Staub, the Broadway shoe dealer, speaking to a Times man:

"I never thought I would have more money than I knew what to do with, but, by thunder, I had it tonight. I have been advertising a special sale of shoes in The Times for a few days, and the results were amazing. I never had such a big trade in my life. Why, I took in so much money today that I was afraid to keep it in my safe and I went and hired a safety deposit box at the Citizens' Bank and Trust Company tonight just to put that money in."

"I tell you that if you offer bargains to the people they will come to you, no matter on what end of Broadway you're on. Honest, I never did any advertising that paid so well as this recent campaign in The Times."

### ANCIENT CHURCH TO BE REVIVED.

CORNER-STONE RELAYED ON NEW SITE BY CATHOLICS OF SAN DIEGO.

[LOCAL CORRESPONDENCE.]

SAN DIEGO, May 17.—The relaying of the corner-stone of the Church of the Immaculate Conception at Old Town, which was originally laid in 1869, took place this afternoon with impressive ceremonies. The church was begun more than forty-five years ago, but was never finished because of the removal of the members of the parish to the new San Diego founded by Alonso Horton.

The box placed in the corner-stone in 1869 containing a San Diego Union, a Los Angeles News and San Francisco Chronicle, and a Spanish paper of June 10 of that year, was today placed in a larger box with papers of today, coins and a silver cross.

The new church is being built through a bequest by Margaret McGregor and the facade is a replica of the first mission ever built by Father Junipero Serra. Rev. Father Joseph Menzies conducted the service.

### BUSINESS BRIEVITIES.

[Advertising.]

For quick action drop answers to Times "liners" in Times' inner boxes to downtown office buildings. The locations of the boxes are printed in the first column of The Times "liners" section.

Times School of Domestic Science. Free lecture Tuesdays, Thursdays and Saturdays at 2 p.m. Second floor, New Times Building.

YEAR

## DOHENY TO REAR GREAT FLAGPOLE ON MOUNTAIN.

**THE rising sun yesterday lit the completion of one of the most remarkable tasks that a patriotic millionaire ever set for himself.** Months ago E. L. Doheny, the oil magnate, placed an order with a local lumber company for the longest single-piece flagpole obtainable, to be set up on the loftiest peak which the Santa Monica range of mountains affords, back of the Doheny property at Beverly Hills.

After some trouble a perfect cypress trunk, 120 feet long and worth \$200 laid down at the lumber yard, was secured. Last Saturday evening thirty men, distributed at three-foot intervals, lugged the great pole up the last stretch of the rough mountain trail and laid it down on the spot where it will later rear its great height to the stars and stripes to the clouds, a landmark in a country of landmarks.

The huge flag it is to carry will be visible for many miles. The mere cost of carrying the pole to the mountain top was \$200. Taking a flagpole, particularly a flagpole 120 feet long, up a narrow and tortuous mountain trail is like carrying office furniture up a winding stairway to a three-room flat, only more so. Mountain roads are seldom laid out with a ruler. They are full of quips and quirks and wanton wiles. They are adapted to the transport of small articles like burros, but not to elongated articles like Doheny's flagpole.

With this pole it has been a case of back and fill early, late and often. It has been a case of upward by inches; with the pole in almost constant oscillation from one side to the other, for to follow the roads means that the pole has to change directions about every foot. In fact, if a transit chart is ever made of this pole's upward journey it will look like the disturbance of an earthquake.

A Cabby's Privilege. The singer wanted the top lowered and this required another five minutes. Bispham suggested that the thirteen minutes should not be counted. The man at the stand insisted that it should and then the fireworks started. Finally the taxi man, who has seen how the singer felt about it, ruled that the five minutes required to lower the top would not be counted, but stood pat on the eight minutes.

"If this is your treatment then I'm through with you," Bispham declared as he took his seat in the car. "This is enough. I'm through."

People seated in the lobby of the hotel heard the loud talk and crowded out on the sidewalk to witness the haughty departure of the singer. When Bispham returned one hour and a half later he paid for the eight minutes under protest, repeating his former declaration that he would not again patronize the stand.

**Shipbuilding Halts.** The Harbor Commission's book on the local port, and then says: "We are building a small fleet of steamers which we hope to operate between ports on the Pacific Coast and Boston."

"The repeal of the Panama tolls bill, which seems to be imminent, will make a great deal of difference to the success or failure of the operations. However, we have not lost courage entirely and hope that in the near future some of our boats will have the pleasure of entering your port with a cargo from this city."

**THE WHISTLE THAT FAILED.** Driver of Automobile Refuses to Stop on Signal and Breaks Pedestrian's Leg. Ford E. Parker held one hand out to indicate that he needed the right of way urgently. The driver of an automobile coming from Ivanhoe at the Los Feliz hill refused to notice it. Parker nodded his head vehemently and whistled through his teeth, one sharp, commanding whistle. Still the motor car driver refused to pay attention. So Parker threw up both hands and fell under the wheels of the car, breaking his left leg in two places.

Parker, who lives at No. 1852 North Vermont avenue, was taken to the Receiving Hospital in an ambulance. The motorist drove on. He is sought by three policemen.

**It should be flat braided and cut with a strong suggestion of military trimness. The waistcoat should have a narrow shawl collar. Like the coat its material should be Worsted Vicuna in either Oxford Gray or Black.**

Trousers of striped Worsted and cut fairly snug. "Gordon-made" has been a standard of Los Angeles well-dressed men since back in '86.

If that tells its own story, you'll find Suite 300 just a step from the elevator.

**Benhard Gordon**

Spring at Seventh.

## EVERYBODY'S PLAYIN' IT.

**Playin' What? Auto Poker; So Will You When You Have Read This.** Auto poker, the latest game of chance, broke out in Los Angeles yesterday, but the police could find no law to justify them in making arrests on gambling charges.

Here's how they play it. The first player notes and bets on the number of the first passing automobile. Likely it's 11,761. Three ones—three aces. The next man draws the next passing car. Its number is 92,553. This is two pair and the three aces gets the money. The element of the "draw" is of course eliminated and it is a proposition entirely of a "show-down" on the first deal.

Numbers with "0" in them are called "niggers," and the unlucky holders are entitled to compete with but four numerals. In case of a "straight" the zero does not count.

From Dr. King or from Charles J. Clayton, of Denver, her husband, Dr. King declared last night that this really means no one can see her without his order, but that the husband is the legal guardian, and an order from him cannot be denied by the physician in charge. However, he indicated that he would consider the issuance of an order by Clayton as in a sense removing him from charge of the case.

Preceding the active stage of the Talbot sanatorium on North Normandie was a significant episode connected with Mrs. Clayton's arrival here. Dr. King received a telegram from Dr. G. Gill Richards of Salt Lake City, who had charge of Mrs. Clayton after she made the attempt to take her life in the Hotel Utah. The telegram asked Dr. King to assume control of the case for Dr. Richards. Meantime, Dr. Robert L. Tabbitt of

led his congregation to the successful assault and demolition of an alleged "spite fence" erected by Robert Stoll, appears in police court tomorrow to answer a charge of malicious mischief. He will do so with the firm conviction that the Lord was and is on his side of that fence. The pastor intimated as much in his pointed sermon on the subject last evening.

Pastor Williams holds that it makes no special difference that Stoll put up his fence on his own property adjoining the church, at Fifty-seventh and Hoover streets. He did it in such a way as to block entrance to the house of worship and thereby interfere with the Lord's work, says the minister. It will further be pointed out that Stoll was laboring with before force was resorted to and that no effort was made to tear down the fence in a clandestine or underhand manner—in fact Stoll was barricaded behind the fence at the time the congregation was making little pieces out of it.

Arbitration, mediation and other brands of diplomacy have been tried in vain by City Prosecutor McKeely in an effort to heal the schism. The dove of peace refuses to sit on the church steeple and Mr. Williams accepted a warrant of arrest. A morning in April dawned bright

## FENCE HAD NO CHANCE AT ALL.

**Lord With Fighting Parson Who Tore It Down.** Pointed Sermon on Eve of Minister's Trial.

**To Plead Not Guilty to the "Malicious Mischief."** And it came to pass, when the people heard the sound of the trumpet, that the people shouted with a great shout and the wall fell down flat.—Joshua vi:20.

When Rev. W. L. Williams, pastor of the First Cumberland Presbyterian Church, and the fighting parson, who

## BIGGEST COP GETS LICKED.

**But It Takes Eight Men to Do It and They're All Badly Used Up.** F. N. Van Norman, the biggest cop on the police force, was whipped yesterday, but it took eight men to do it. He went early Sunday morning to stop an exciting dance at Pico and Santee streets. Things were very lively and eight Swedish men of much muscle refused to permit the assembly to be interrupted.

That started a fight, and Van Norman, who weighs over 260 pounds and can scale a wall or do the high jump with the best in the department, undertook to restore peace. He restored peace, but his features were badly battered. He had them dressed at the Receiving Hospital.

## MAY FORM A NEW COUNCIL.

**Insurgent.** Union Labor Organization in a State of Chaos. Three Highest Officers Are Summarily Kicked Out. Blows Narrowly Averted at Stormy Session.

The war that split wide open the union labor forces in Los Angeles during the power bond campaign has broken out with renewed vigor, resulting in the summary removal from office of George A. Wright, president of the Central Labor Council; F. C. Marsh, executive committeeman, and

The Pacific Electric's wreck at Ardenale yesterday. The top picture is a general view of the wreck and the wrecking crew at work. In the far background is the electric engine which on the track. Below is a curious "sandwiching" of one of the splintered cars between two others.

## FIRST ELECTRIC FREIGHT TRAIN GOES INTO DITCH.

**FIVE THOUSAND** pigs on the Durbin sustenance farm at Covina went without their Sunday breakfast yesterday because of the first electric freight wreck in local history. A long train of box and flat cars played crack the whip at the end of a Pacific Electric engine at Ardenale and emptied in a nearby ditch.

The wreck occurred just before dawn, when the train went into an open switch on the Pomona line at Ardenale, near El Monte, and nine of the eleven cars were wrecked. The train crew escaped without a scratch, though some of the cars were badly splintered.

The outbound train reached a temporary switch at 4:45 o'clock and Motorman Steinberger was running his big mogul electric engine at twenty miles an hour. The switch was set for inbound traffic at a point where the inbound main line is washed out. Steinberger says he did not notice that the switch was set against him. The heavy train dashed into the open switch. Motorman Steinberger, Conductor Perry, Brake-man Webster and Trolleyman Imbler jumped to safety while the heavy cars, one after the other left the rails and turned over in the ditch. The train consisted of two cars of rock, two gondolas of garbage for the hogs, one car of manure, one of flour, one of crates and two of

## THIEF STEALS LEATHER BAG BUT INSTEAD OF CURRENCY FINDS POLICE JUDGE'S CARDS.

Some thief spent a bad Sunday yesterday contemplating the contents of a small leather bag that he stole from an automobile at Seventh and Broadway. The contents consisted of 5000 business cards of Police Judge Chubb, announcing his office and his telephone number.

They were in a leather bag such as is used to carry currency or valuable papers. The thief dipped into the tonneau of the police judge's machine, snatched the bag and ran. His flight was noticed by pedestrians. The cards had been freshly printed and the police judge was taking them to his office.

## New and Used Specials In Pianos and Pianolas

For months we accumulated a lot of used instruments. Some are in Grand and Upright Pianos. Some are in Pianolas. Some are in disassembled styles. Some are in fact of discontinued agencies formerly represented. They are in worth more than their cost. We have marked them as "new" if they are as good as new. We offer a Piano as "new" if it is less than 30 days.

**Upright Pianos**

MAKE	Regular Price	Special Price
Kurtzmann, Oak	\$450.00	\$324.00
Kurtzmann, Oak (used)	\$400.00	\$291.00

## PICNIC DISPELS OFFICIAL CARES.

CAPT. FREDERICK'S ASSOCIATES ENJOY DAY'S OUTING.

Home to Goodness Baseball Game Ends With Score in Doubt—Detectives Discover Big League Throwing in Action—Empire in Center of Rapid Fire of Eloquence.

Fifty deputies and attaches of the District Attorney's office with their families were guests of Capt. Frederick's at an old-fashioned picnic at his ranch at Hyatt yesterday. Office cases and high-brow legal problems were cast aside by the officers of the law and order while they pitched horseshoes, "skinned the cat," ran foot races, hit the ball on the nose and destroyed toothsome delicacies.

The baseball game was the big event of the happy occasion excepting, of course, the feast of good things to eat. It is reported, on good authority that Malcolm McLaren, the famous slush-hound of the District Attorney's office caught a big league scout disguised as a deputy hiding behind a cornucopia of gettysburgs on the series for Muey McGraw of the Giants. McLaren absolutely refused to talk for publication, but will file his report at an early date.

But to the game. Deputy Mike Shannon of the eloquent fam, captained the Ins. while Capt. Bill Bright looked after the interests of the Out. Bill Doran, a famous sand-bagger from Long Beach, was behind the timber for the Ins. while Arthur Veitch picked 'em off the big stick for the Out. Percy Hammon shot the salivary-smeared-sphere down, the Ama Keys twisted the seams around the necks of the Ins. Capt. Frederick covered the initial sack like a regular celery picker and managed to catch three balls during the game. Joe Ford dug 'em out of the brush at second and clouted the Spalding so hard with the willow that it holloed for help.

The Shannonites banded out fourteen rallies in the first frame and the Outs came back with thirteen. At the end of the seventh inning, when the Ins. had the famous Shirlins Holmes, had not discovered the correct score. Deputy "Hay" Hogan of the Ins. then called Frank Blair, the ump, to the sideline, and in a few well-chosen words told him what he thought of him for calling a pitched ball that hit the water bucket, a strike.

About this time the several wives of the players entered the field and made the whole bunch quit. Deputy John Richardson won the blue ribbon in horseshoes with Arthur Keetch runner-up. Percy Hammon won the fat man's race and Deputy Joe Ford batted home in the ten-yard walk. All in all it was a delightful affair for Capt. Frederick and his associates.

**NEGRESS IS ASSAULTED.**  
Stopped on Street and Beaten, Choked, Robbed and Outraged by Colored Man.  
On the night of her 19th birthday, Miss May Thompson, negress, met with the cruellest experience of her life. Early Sunday morning she was attacked by a negro as she was crossing the railroad tracks on her way to her home, No. 1921 Staunton avenue. Her head was severely beaten; she was felled, robbed and assaulted.

Miss Thompson, in celebration of her birthday, had visited several friends, and was returning to her home alone. She had several packages of gifts of the day, including a new set of hair combs, in her arms.

The negro stopped her and tried to start a conversation. She struck at him with her right hand, and he seized her by the neck of her dress, and she began to choke her, but she was already unconscious, having fainted, and after assaulting her he stole her purse containing \$15. She has given an accurate description of the assailant to the police.

**South Pasadena.**

**TRAFFIC MATTER IN ARBITRATION.**

**COMMISSIONERS AND TRUSTEES TO SETTLE DISPUTE.**

Two Pasadena and Electric Company Considering a Quick Way Out—Poppy Day With San Jose Is Planned—Railroad Commission Ready to Consider Utilities.

[LOCAL CORRESPONDENCE.]

**SOUTH PASADENA, May 17.**—The South Pasadena Chamber of Commerce dropped the transportation problem and at a meeting last evening it signified its willingness to let the matter be settled by the City Trustees of South Pasadena and the City Commissioners of Pasadena, by whom plans for settlement have been made.

The Chamber of Commerce of San Jose has asked the South Pasadena Chamber to join in the celebration of "Poppy Day" on March 20 of next year, and arrangements will be made for its proper observance.

The State Railroad Commission has asked that the City Trustees keep it informed as to all conditions in the city. All complaints received by the Trustees will be forwarded to the commission for investigation. Complaints may also be sent direct, but the people are notified that complaints must be filed before improvements can be made.

A bath of gasoline in the kitchen of the home of Elmer Packard, No. 1103 Meridian avenue, in which a member of the family was doing some cleaning, became ignited and the inside of the room was soon a mass of flames, which were extinguished by the fire department after an estimated damage of \$50.

**HIT BY ELECTRIC CAR.**

James Sloan, 50 years old, of No. 127 Bloom street, was struck at the crossing of Aliso and Los Angeles streets last night by an outboard Pacific Electric car on the El Molino line. His left ankle was broken. He was removed to the Receiving Hospital. The car was run by Motorman F. M. Skeen.

## Fence Had No Chance.

(Continued from First Page.)

and clear on a motley fence constructed of brick, boards and stones, which obstructed itself across the road, terminating in a chain-link fence, which was the property of the church. The first night part of the fence disappeared. The next day it was completely demolished. Still had the minister arrested.

"Man was never created for indolence or inactivity," Pastor Williams asserted last evening. In the matter in question both he and his parishioners have been true to this doctrine. No more was permitted to grow on that fence. There was no "indolence or inactivity."

"Barriers must be demolished," and then he paused. Everybody was thinking of the late fence.

Mr. Williams has said that he will enter plea of not guilty when he appears in police court. He is demanding payment for the fence. His request has been flatly refused by the church members.

While City Prosecutor McKeeby was trying to settle the case out of court, Mr. Williams offered \$150 for the strip of land. The owner asks \$400 and spurned the offer. Then negotiations were broken off and the court action was instituted.

It is not known whether or not Still was in the congregation last night.

**Accommodating.**

## FREE FUNERAL FOR ANIMALS.

DOGS AND CATS TO BE SHOWN EVERY CONSIDERATION.

Garbage Contract Entered Into With City Expected to Make Its Owner Rich—But If You Have a Horse or Cow Die, Look Out, for It Will Cost You Money.

Free funerals for cats and dogs will soon be a reality in Los Angeles, for the new \$400,000 incinerator is to be started today and one of the concessions made by the garbage company in its contract with the city is to gather in all the little dogs and cats who die and cart them to the hot place and reduce them to ashes or some by-product which may be capitalized.

Really, the incinerator will not be a mortuary for several months to come, for the work that is to be started today is merely the outlining of the frames for the animal morgue. C. D. Crouch, who has the contract with the city and a very comfortable contract it is—will break the ground and start concrete work. Presently, along will come the incinerating machinery and the new plant will be placed in operation.

The garbage contract entered into by the Board of Public Works and Crouch is one of the unusual documents on file in the city archives. It has cost the city more money than any other contract in its history. It indicated when it passed under the eyes of the City Attorney, the City Engineer and the Board of Public Works. The city officials didn't know it at the time, but they were actually signing an agreement to do \$15,000 worth of street improvements for the plant at Lenard street and the Santa Fe tracks, and donate \$5000 worth of water to the incinerator each year.

In this day and age, when municipal ownership looms up as a seductive offering, the clause providing that at the end of five years the city may own the plant may have attracted the eye of the city officials.

Crouch agrees to handle all the city's garbage. All the city has to do is to collect the refuse and deliver it to the incinerator. The residue of restaurant meals and hotel dinners will arrive at the garbage transfer only to be changed into something more useful even if less palatable.

Crouch pays the city \$1 cents a ton for every ton of garbage delivered. After that he can make soap or anything else if he sees fit. If he handles the garbage he expects, he says he will get rich on his contract. The city feels that it didn't make a bad bargain, so far as disposal of garbage is concerned, even if the joker in the contract did surprise two or three city departments.

Crouch is at liberty to charge any citizen unfortunate enough to have a dead cow, a dead pig or a dead horse, anywhere from 50 cents to \$3 a head. It was said yesterday that the high cost of living for any one to have a horse or cow die, whereas, it will cost nothing when a cat or a dog shuffles off. The collection of smaller animals is to be done free of cost.

At the same time the new garbage company will handle an ambulance service for injured horses that run away or of the nimble auto.

Crouch has erected garbage plants in different parts of the country. He comes from Chicago, where he has operated for many years. H. J. Murphy, his assistant, arrived yesterday from the East and will superintend the construction of the machinery at the new plant.

**HE REDUCED 57 POUNDS.**

New Method of Flesh Reduction Proves Astonishingly Successful.

Johnstown, Pa., May 17.—Investigation has fully established that Hon. H. T. Stetler of this city, has reduced his weight fifty-seven pounds in an incredibly short time by wearing a simple, invisible device, weighing less than an ounce. This when worn as directed, acts as an infallible flesh reducer, dispensing entirely with dieting, medicines and exercises. Many prominent men and women have adopted this easy means of reducing superfluous flesh, and it is stated the inventor, Dr. J. D. H. of No. 17 West Thirty-eighth street, New York, is sending these outfits on free trial to all who write him.—(Advertisement.)

## May Form New Council.

(Continued from First Page.)

Council were charged with bribery. The Los Angeles Record, mouthpiece of the Central Labor Council, later in the day stated that "The story in The Times was the subject of much joking comment around the Labor Temple today. Everything is peaceful in union labor circles."

Last Saturday afternoon the Record published a column story telling about the removal of the three officers, "who used their official positions to fight for corporations," etc. Following is an excerpt from the Record of May 16: "It developed during the discussion that the Union Labor Bulletin, issued under the auspices of the Building Trades Council, did not cost the Building Trades Council a cent. A one-page ad. in the Bulletin was taken by the power companies. The delegates were told this fact and then told to draw their own conclusions as to who paid for printing and distributing hundreds of thousands of copies. After a debate of two hours and a half the central body without any building trades representative was formed. free Bureau THE CHURCHES YESTERDAY

THE CHURCHES YESTERDAY Southern California in the years following the opening of the Panama Canal.

REV. W. L. Y. DAVIS. WEST ADAMS CHURCH. MAN MAY HAVE COME FROM BRUTES BUT THERE IS DEFINITE ADVENT

Speaking on the subject, "The Divinity of Man," at the West Adams Methodist Church yesterday morning, Rev. W. L. Y. Davis, the pastor, said in part:

"Some men still feel the brute and trill their nails with teeth. 'I never was enamored of hoofs and paws.'"

"That was a great saying of John's: 'Now are we the sons of God, and it doth not yet appear what we shall be; but we know that when He shall appear we shall be like Him, for we shall see Him as He is.'"

"Thank thee, John, for smatching the veil of the mystery of our dreams. A man has to stand on tip-toe to see all John saw."

"Some men on all four deny. 'You cannot hold Christ too divine for me. Away with Christ sense that crowds Him back to flesh. It crowds me. We would have flesh that can be glorified.'"

"I do not care to belong to the order of apes, nor of bears, nor of swine. I do not want to belong to an animal order at all."

"The Order of the Sons of God is satisfactory."

"Christ's offer of exaltation carries strange potency that draws response from the human soul."

"When He invites me to share His throne I yearn not to crawl away into the air of the bear."

"I greatly prefer dying to wallowing. Wings are more appealing than claws."

"The difference between me and that climbing thing in the African jungle is more than just the angle of our skulls. The difference has pushed my skull out perpendicularly."

"If other folks prefer flatheads they are welcome, but pray excuse me."

"I do not deny the path along which the Creator may have rolled my body up through brute life in working out and fashioning it through the ages, making improvements upon each generation beneath. Let it be so; that may have been His method."

"But as the sunshine is rolled into the rose petals, there came a time one bright morning when the Sun of Righteousness was rolled into my soul. And forthwith I leaped to my feet and stood straight and knew that I was made in the image of my Maker."

"If this be true, thou art patrician-born, O my soul!"

"Then be thou open-minded, open-handed, give like God of love and gold. Waste not your gifts divine on trivial tasks."

"Be not a leech to suck the blood from the neck of the church, bestowing blessings in the waste."

"Ten thousand wrongs must yet be righted; ten thousand problems must be solved; a hundred thousand bodies need some good beneath the burden; the myriad-man awaits a hand to kindle torches in the darkness."

"Thou knowest the path back into Paradise; pursue it, both the body and help some other pluck the purple cluster from the tree of life."

"Then shall all streams be fountains of the living, trusts between thy soul and God."

"The cross, now heavy, shall bear light; the cross, now dry and hard, shall burst in bloom."

REV. E. S. HOJEN. FIRST UNITARIAN CHURCH. NATURE IF INTERPRETED ARIOT. WILL ENABLE MEN THROUGH HER TO FIND GOD

In a sermon on "Rousseau the Sentimentalist," at the First Unitarian Church yesterday, Rev. E. S. Hojen, the pastor, said in part:

"Rousseau has been constantly denounced in Christian pulpits as being an atheist and an irreligious man. This was far from the truth. He was deeply religious and his religion was of the emotional and imaginative type."

"All his writings are deeply reverent. His faith in God was fundamental. It was not so much a faith based on an intellectual conception as a faith founded on feeling. He felt himself in the presence of God. He felt that God ever moved through him and all the world of life."

"The reason he has been denounced as an atheist and an infidel is because his religious faith was not of the conventional kind. He was not a Christian in the orthodox sense, but a Deist. He could not confine his faith in God, to Christ and the Bible as a revelation. He felt that God made Himself known to every man through his natural life; every man who lived normally received Divine guidance as a sort of inner illumination. He believed that every man must find God directly and individually; that the mechanical machinery and dogmatism of his time stood in the way of man finding God instead of helping him and should therefore be abolished. Rousseau like most of the more mystical and emotional Deists of his time had more in common with the Quakers than with any other of the religious sects."

"The cry 'Back to Nature,' which is always associated with Rousseau, is usually misinterpreted. It is usually interpreted as advocating a return to a primitive, savage state as being superior to anything that we have now. This is not a true interpretation of Rousseau. He believed that man could and should grow and develop from generation to generation and should rise from state to state. He believed that man could develop a civilization along natural lines that would be wholesome, happy and desirable. This Rousseau contended, had not been done. Much of what we call civilization, he felt, was unnatural, artificial, was at war with nature and consequently was painful and undesirable. Much of our civilization, he said, had not developed along right lines. By 'back to nature' he meant finding those natural and wholesome lines of development and building thereon."

"Rousseau was more than half right. When we are able to read nature's pointings and to interpret nature's right, not only as it is, but as it is becoming, then nature will cease to buffet us and harry us and beat us down, but will serve and support us and through nature we shall find God."

DR. CAMPBELL. FIRST PRESBYTERIAN. THE LORD SHALL GUIDE THEE CONTINUALLY AND SATISFY THEE

Dr. Campbell, pastor of the First Presbyterian Church, preached yesterday on the theme, "A Constant Guide." He said in part:

"The prophet Isaiah stood upon the plain where he could look down upon Israel and call them to return from their sin and trust in God their great protector and friend. The keynote was struck by him when he laid emphasis upon the divine leading of God and when he called upon them to return to their God. He would inspire new courage with them when they were overcome by

Travel on "A.B.A." Cheques They are safe to carry and much more convenient than actual money, both abroad and in the United States. You can use them in any country, exactly like currency, in payment of hotel bills, railway and steamship fares generally, or for purchases in the principal shops. 50,000 banks throughout the world will cash them. "A.B.A." Cheques are issued in \$10, \$20, \$50 and \$100, plainly engraved with their exact foreign money values. They are the only travelers' cheques accepted under the law for U. S. Customs Duties. Get a booklet about them at your bank. Be sure that you get "A.B.A." American Bankers Association Cheques

FIGHT FOR LIFE FOR WIFE'S SAKE. OLD SOLDIER FOUND GUILTY OF MURDER INSISTS HE IS INNOCENT.

Wilson E. Davis, the 74-year-old soldier found guilty Saturday, in Judge Craig's court, of murdering his partner, William G. Wheeler, declared yesterday that he will fight for his freedom. He says he will ask for a new trial. "I know that I will never go to the penitentiary," said he. Davis insists upon his innocence with much emphasis. He declared that he is certain that perjured evidence was given at the trial. What steps, if any, will be taken to prove that witnesses perjured themselves, he declined to say. "If it were not for my wife," said Davis, "I would accept the verdict with resignation. 'I am an old man and have few years to live. But she is too old to provide for herself and if there is a chance for me to clear myself I am going to do it for her sake alone.'"

APPROVES CRITICISM. Dean McCormack Upholds Bishop Johnson in His Plea for the Spiritual in Human Affairs.

Warm approval of Bishop Johnson's severe criticism of some present-day religious methods and earnest plea for the spiritual in human affairs in his annual address last Wednesday, was given yesterday by Dean McCormack of St. Paul's Cathedral, the Episcopal residence of Bishop Johnson. Dean McCormack not only approved Bishop Johnson's note of warning, but vigorously censured those who have criticized the bishop for flaying "a religion without a spiritual side."

DR. TURK. HIGHEST SOCIAL LAW IS THAT MEN LOVE ONE ANOTHER AS CHRIST LOVED MAN

At the First Congregational Church yesterday the pastor, Rev. Morris H. Turk, Ph.D., spoke on the subject, "The Highest Social Law," in part as follows:

"The one supreme commandment and the highest law contained in the covers of this wonderful book is found in the gospel according to St. John xv-12. And of course the words are the words of our Lord."

"This is my commandment unto you, said Jesus, 'That ye love one another even as I have loved you.'"

"It seems to me the fashion of the part of some of our Christian thinkers and leaders to be very careful of the teachings of Christ and to place in the world's thinking. It is probably a by-product of the rise of the modern study of comparative religion. The fact of this, that and the other nation was seen to have some content of goodness and to be striving for the ideal and because of that fact, all the world religions, Christianity included, were construed as part of a great historical system of things. But the Christian faith is simply considered one of many forces, although it may be the mightiest, one of many forces conspiring to bring in a new heaven and a new earth."

"Now, it is not surprising that a man unchooled of Christ should hold a view like this. No man, unless he were blind to the fact, could view Christ out of the social uplift of our present world. And in fact it is true that the majority of thinkers in the realm of social progress do include Christianity as a definite working force for human uplift. Many of these thinkers do not construe the person of Jesus Christ as we do. Christ is construed as a historical Christ and He is understood as being a part of a great programme of human progress."

"But the amazing thing is that a man schooled of Christ, who has learned somewhat of the mind of the Master, who has touched the hem of His garment for healing power, who has penetrated to the heart of the Master's redemptive ministry, should dare to assume that there is no redemption for human society all comparable with that which Christ lived and taught."

"I, for one, frankly confess that I have no hope for a better world unless we can bring the ideals of Jesus Christ down into our human lives."

"For Christ did not come merely by some spiritual magic to save us from some distant heaven. You know full well that I hold that truth to be the key and crown of all our living here. But the validity of Christ's teachings for eternity must also be construed as the validity of Christ's teachings for our time. The very message of eternity is big for the present."

There are four great rules of life which interpret the attitude and mind and the standard of conduct for four types of persons. "The first of these is the iron rule. I am glad to report that so far as I know this rule has never found ex-

**Tremendous Noise Is Due on  
South Broadway.**

William J. Knox, a Philadelphia bowler, knocked down 300 pins, the perfect score, during the American bowling Congress tourney at Toledo on March 10, 1913. He is the only bowler to accomplish the feat in a national tourney. He has a medal emblematic of the feat.

have given relish to the conflicts between the enemy of the stage and the implacable foe of the society, and the adventures of 'Captain Swift', 'Jim the Penman', 'Raffles', 'Arsene Lupin' and 'Sherlock Holmes', the picturesque investigator addicted to hypnosis and hypodermics.

his position, with the object of opening a real estate business in Phoenix next month. Walter has acted as cashier for more tournaments than any man known here, carrying off those difficult duties with exactness and remarkable dispatch, to the satisfaction of all concerned. In entering a new field of endeavor, he carries with him the best wishes of all who ever met him in the old.

Chicago ..... 0 0 0 0 0 3 0 2 2 5

**SUMMARY**

Two-base hits—Oakes, Bradley, Mathis. Home runs—Tinker, Beck. Sacrifices—By Knutner, Watson, 2; Bower, Watson. Bunting by Watson, 2; Lennox, Bradley, McDonald, 2; Knutner. Left on bases—Pittsburgh, 8; Chicago, 8. Double plays—Tinker to Farrell to Beck; Wickland to Beck to Wilson to Zelder. Hits—Of Knutner, 4 in 6 innings; of Barger, 2 in 2; of Watson, 10 in 8; of Hendrix, 1 in 1. Wild pitch—Knutner. Time of game—1h. 40m. Umpires—Suah and Mammann.

SCORE BY INNINGS.

New York .....	123456789
Cincinnati .....	100000000
	300011012-8

SUMMARY.

Two-base hits—Boucher, Merkle, Hobbittell.

## MOTHERS PLAN TO STUDY FLAG.

Annual California Congress to Meet Wednesday.

Child Welfare to Be Chief Topic of Discussion.

Arroyo Seco Springs Park to Be Show Place.

(LOCAL CORRESPONDENCE.)

PASADENA, May 18.—One entire afternoon will be given to a study of the American flag at the 1914 annual California Congress of Mothers, which will be in progress here Wednesday, Thursday and Friday of this week. This session, Thursday afternoon, will be at the High School auditorium like the others, but, unlike the rest, it will be open to the public.

A special invitation will today be extended to all the veterans of Southern California—"blue, gray and khaki." Mrs. A. L. Hamilton, chairman of the Arrangements Committee, desires that they attend in a body, if possible.

Mrs. Frances E. Richardson of Los Angeles will deliver the address of the afternoon. Her subject will be: "The Growth and Triumph of the American Flag." The program will be patriotic throughout.

It is expected that over 300 delegates will attend the convention. The program is such an extensive one that there will not be a minute to spare. The first session is to open at 9:45 o'clock Wednesday morning, when the congress will be opened and preliminary steps taken for the annual election of officers and the amendment of the constitution. Thursday morning will be devoted to the discussion of child-welfare work and the reading of reports, and Wednesday night to educational topics. On Thursday night there will be a musical recital at the Pasadena Presbyterian Church.

Friday morning the visiting delegates will be taken for an automobile ride about the city and in the afternoon good roads and other topics will be discussed. Friday evening the reports of different legislative committees will be made and the respective subjects discussed by special speakers.

WILL BE A FINE ONE. With the ornate plunge now under course of construction there as an incentive, the City Commissioners will probably next fall make extensive improvements at Arroyo Seco Park that will bring that new recreation

## INFURIATED MEXICAN ATTACKS FLAG-FLYER.

(SPECIAL CORRESPONDENCE.)

COVINA, May 17.—Councilman J. M. Wilson and D. Huddleston fought a maddened Mexican yesterday noon, and only succeeded in subduing him until he was hung to the sidewalk and sat on until City Marshal Crocker could arrive at the scene of trouble. The Mexican had made an attempt to murder Andrew Meagher, an elderly workman, who had nailed an American flag above his door.

Meagher was standing in front of his home when attacked. The Mexican drew a long knife and advanced on him, infuriated because Meagher had nailed up the flag, which was on the center, which is situated not far from the fashionable Orange Grove avenue residential district, to the front as one of Pasadena's show places.

It is now the intention of the Commissioners when they make up the budget, to allow enough for the upkeep and improvement of the Arroyo Park to make it one of the most alluring spots in Southern California. The plan is to erect a house so that the keeper may live on the premises and to set out many more flowers and shrubs. Later the place will probably become the chief place for propagating plants afterward to be set out in the other parks.

CITY BRIEFS. Mrs. Kate B. Comstock, wife of William C. Comstock, a manufacturer of Cleveland, died yesterday after a short illness at the home of her son, W. W. Comstock, No. 920 Garfield avenue, Alhambra, at the age of 62 years. The body is at the mortuary chapel of Ives & Warren in this city and will be taken to Cleveland for burial.

Mr. and Mrs. George H. Crosby of Mira Vista left yesterday for their Minnesota home. They go from here to Washington. They expect to be here all next winter and have with them G. H. Crosby and Miss Margaret E. Crosby.

Hotel Vista del Arroyo, Pasadena. [Advertisement.] Hotel Guinalinda, open all summer. [Advertisement.]

FULLERTON ELECTIONS. (LOCAL CORRESPONDENCE.) FULLERTON, May 17.—The special election held here yesterday to vote on \$150,000 bonds for the improvement of the road to Brea and Ross avenue was defeated by 414 to 272, it requiring a two-thirds vote to carry. The \$500,000 for additional fire equipment carried by a vote of 541 to 148.

## BRAWLEY SHIPS ITS CANTALOUPE.

FIRST OF LUSCIOUS MELONS SENT TO TICKLE THE PALATES OF EAST.

(LOCAL CORRESPONDENCE.) BRAWLEY, May 17.—Carrying hundreds of luscious melons from the wonder valley the first car of cantaloupes of the 1914 season rolled out of here on its way East last night. It was sent by S. A. Gerrard & Co. and Duncan Campbell, and came for the most part from the Oakley ranch. It is consigned to Lyons Brothers, New York, and will be pounced upon by epicures of many eastern cities.

No cars were filled today. Tomorrow another car will go out, and now that ripening weather has set in the shipments will rapidly increase. It is estimated by conservative fruit men that the season's output will be 4,000 cars, 500 cars more than last year. The fruit is of excellent flavor.

About eighty crates in small express lots have been shipped out of this station within the last ten days. The shippers of this first car of "cants" expect the fancy price of \$1 per crate. About 310 crates are packed in a car and the crates contain from thirty-six to fifty-four cantaloupes each.

ALHAMBRA'S FOURTH. (LOCAL CORRESPONDENCE.) ALHAMBRA, May 17.—Alhambra wants to celebrate the Fourth of July. Last year the celebration was waived, so that Alhambra day, celebrated on July 12, might not suffer. This year there seems an urgent desire on the part of many people here that a good, old-fashioned celebration be indulged in on the nation's birthday. A strong demand for the permanent Fourth of July Committee has called a meeting for tomorrow night to be held in the City Hall, at which time a definite decision regarding the matter will be reached.

## GRABS ITS TAIL AND HANGS ON.

Noted Swimmer Captures Sea Lion in Its Element.

Battle Lasts Half Hour as Thousands Gasp.

Hermosa Beach Pier Scene of Another Frolic.

(LOCAL CORRESPONDENCE.)

HERMOSA BEACH, May 17.—Diving off the new municipal pier in sight of thousands who had come here to celebrate the opening for a second day, George Freeth, noted Hawaiian swimmer, seized the tail of a young sea lion, swimming in the sea, and after a battle that lasted for half an hour, hoisted the animal into a boat from which the astonished occupants sprang into the water in their fright.

Freeth's left hand and arm were badly lacerated in the struggle and pieces of skin were washed from his legs by the animal, which used teeth and flippers in a mad fight for freedom. When the three boys who occupied the boat, climbed aboard again one of them was severely bitten on the leg.

The municipal pier was crowded with spectators, all interested in the diving and swimming races, when their attention was attracted by the sight of the man and the sea lion struggling in the ocean for supremacy. Freeth is instructor at the Los Angeles Athletic Club and was giving an exhibition of his prowess as a diver when he noticed a young sea lion in the vicinity of the small skiff containing three young boys.

The lion leaped close to the boat and Freeth swam out to the skiff from the wharf. He got aboard the boat and waited an opportunity when the sea lion was close, then dove after him and managed to catch him by the tail.

Issued one of the fiercest battles ever seen in the water. One minute the sea lion and man were on the surface of the water and the next they were out of sight and the big crowd would hold its breath until the combatants were again on the surface. The man, however, managed to tire out the sea lion, as it had a fish line fast in its mouth and the swimmer hung to the tail and the line until it was exhausted.

DAY OF PLEASURE. The pier from early morning until late at night held large crowds of pleasure-seekers. Freeth and a party of swimmers and divers entertained the crowd for some time. The race around the wharf between Ray Henderson, the fastest on the Coast, and Sol Tuttle, a young protegee of Freeth, was a feature, won by Henderson. The diving exhibition was a strong draw, and Charles Garr, the world's champion caister, gave his exhibition on the public school grounds, owing to the crowded condition on the pier. He swam over 200 feet.

Thomas Taylor Drill opened the afternoon program with a lecture of 150 voices. This was followed by a series of solos and duets. In the evening there were fireworks and a band concert, the crowd staying until the last minute.

The committee having the affair in charge consisted of J. S. Somerville, chairman; Mrs. Elizabeth Jones, Mrs. J. Bell, Mrs. A. A. Richardson, F. H. Johnson, W. R. Andrews, Edward C. Thomas, G. Thatcher and C. Platt, with A. L. Walton as general manager.

University of Pennsylvania with athletes who scored 19 1/2 of their 24 1/2 cup winning points in last year's intercollegiate track championship meet have a good chance of getting permanent possession of the cup which goes to the college first winning it five times.

Cornell have won it four times, while Harvard held it one year.

## ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I had been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and now look fine and feeling a thousand times better."

—Miss AMELIA JAQUILLARD, 3961 Teboupioulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."

—Miss ESTELLA MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and been restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Defies Flippers One in Water.

George Freeth and his captive sea-lion, which he grabbed by the tail at Hermosa Beach yesterday as he gave a swimming exhibition.

## PARACHUTE GIRL FALLS IN RIDE ON AEROPLANE.

(LOCAL CORRESPONDENCE.) VENICE, May 17.—Miss Rose Arnold, the first girl to jump with a parachute from an aeroplane, was this afternoon painfully injured when she was thrown from the machine of Frank Stiles while the plane was landing on the field back of Venice.

The girl was ready to make the flight preparatory to jumping from the machine and when about fifty feet from the ground Stiles saw that it was impossible to get up, and started to land. In skimming the ground the machine touched on the mud surface and came to a sudden stop, throwing the girl to the ground. She suffered a wrenched back and a broken arm.

The machine could not gain headway enough to clear the trees at the edge of the field and as the wind was blowing hard Stiles had to land. In making the sudden stop the girl, who was not strapped to the frame-work, fell out. She was removed to the Emergency Hospital, where Dr. Sands attended her. Later she was taken to St. Catherine Hospital, where she now is. She may be suffering from internal injuries.

Many thousands of persons were present, waiting to see the girl make the 2500-foot drop with the parachute. Vera Bennett, a 13-year-old girl, who lives at Inglewood, was passing the day at the beach and while riding on an amusement device, became sick and had to be taken to the Emergency Hospital. She lost consciousness and created much excitement when taken to the hospital, but it is expected she will suffer no lasting effects.

## BETRAYS GIRL IN CONFESSION.

POLICE SAY JOY RIDER ADMITS THEY STOLE AUTO. Cross-Country Elopers in Tight Box at Long Beach.—Police Hounded by Salvation Army White Socialists. Execute Frank Movement—Patriotic Services for Vera Cruz Dead.

(LOCAL CORRESPONDENCE.) LONG BEACH, May 17.—That Miss Luile Watts, a Pike waitress, urged and assisted him in stealing E. T. Harrison's automobile several days ago to take a long-distance, cross-country joy ride to Arizona towns, where the girl had friends, is the confession of Raymond Tinnin, in a confession of the theft today, according to the police.

Tinnin, as well as Miss Watts, are being held in jail here, charged jointly with grand larceny. E. T. Harrison of Los Angeles, owner of the stolen machine, which was recovered by an insurance company near San Bernardino, swore to the complaint.

Tinnin is said to have admitted that he exchanged an extra tire on the machine for twelve gallons of gasoline at a small town this side of Pomona. Miss Watts is alleged to have signed for the oil, using the name of S. Rogers.

FOLLOWING A petition of the Pike merchants to the City Council asking for the prohibition of street meetings at Pine avenue and the Pike, the Mayor today issued an order that the corner in question be cleared of all orators. The police met with difficulty, however, when the leader of the Salvation Army produced a written permit from the City Council providing for their meetings at that place.

They were allowed to go on with their service. This aroused the jealousy of a large gathering of Salvationists, eleven of whom offered to subject themselves to arrest to test the order, rather than to quit the place. Their leader finally prevailed on them to wait and take the matter up with the City Council.

PATRIOTIC SERVICE. A memorial patriotic service for the soldiers and sailors recently killed in Mexico was held tonight in the Forum by the Cavalry Presbyterian Church. The services were held in the regular form of a military funeral. The Long Beach Post of the G. A. R. and Co. H. of the National Guard assisted in massed. Dr. O. H. L. Mason, who delivered the principal address, is a veteran of the Spanish-American War.

RURAL DELIVERY. (LOCAL CORRESPONDENCE.) MONROVIA, May 17.—Postmaster Frank Zimmerman received word from the department at Washington today that rural free delivery will be established from Monrovia June 1 and that preparations are to be rushed so that nothing will stand in the way of beginning the work at that time. A carrier will be appointed by the department, probably from the county roster. The route will serve 130 patrons and will be twenty-four miles in length. The service will be six and one-half hours, starting at 9 a.m. and finishing at 3:30 p.m. Half a dozen Monrovia men are preparing to take the civil service examination for rural mail carrier, given at this office May 23, but their chances for the job are small as it will be impossible to get the returns from the examination before the service is established. The salary will be \$1100 per annum.

POMONA, May 17.—The most successful convention ever held by the Pasadena District Epworth League, over 600 registered delegates being present, closed tonight at the First Methodist Church with the singing of "God Be With You Till We Meet Again" and the benediction by Dr. A. W. Lampert of this city. All day long the programmes have been inspiring. This forenoon Dr. C. B. Dalton of the First Methodist Church delivered the annual convention sermon, and Dr. Lampert delivered a sermon before another large audience at Trinity Methodist Church.

Silver anniversary services were observed this afternoon. Rev. Byron Wilson of Highland Park, Rev. Charles C. Woods of Ontario and Rev. Ben D. Snadden of Glendora spoke respectively upon the past, the present and the future of the Epworth League.

Dr. P. D. Mather, pastor of the Pasadena District Epworth League, installed the delegates to serve the league for the next year, as follows: Los Angeles, J. H. Jennings; Alhambra, J. H. Jennings; Inglewood, Arthur Holman; Long Beach, Arthur Holman; Pasadena, J. H. Jennings; Pomona, J. H. Jennings; San Bernardino, J. H. Jennings; San Gabriel, J. H. Jennings; San Jose, J. H. Jennings; Santa Ana, J. H. Jennings; Santa Clara, J. H. Jennings; Santa Cruz, J. H. Jennings; Santa Fe, J. H. Jennings; Santa Rosa, J. H. Jennings; Santa Teresa, J. H. Jennings; Santa Ynez, J. H.
